## **Mission Statement**

The Township of Union Board of Education believes that every child is entitled to an education designed to meet his or her individual needs in an environment that is conducive to learning. State standards, federal and state mandates, and local goals and objectives, along with community input, must be reviewed and evaluated on a regular basis to ensure that an atmosphere of learning is both encouraged and implemented. Furthermore, any disruption to or interference with a healthy and safe educational environment must be addressed, corrected, or when necessary, removed in order for the district to maintain the appropriate educational setting.

## **Philosophy Statement**

The Township of Union Public School District, as a societal agency, reflects democratic ideals and concepts through its educational practices. It is the belief of the Board of Education that a primary function of the Township of Union Public School System is to formulate a learning climate conducive to the needs of all students in general, providing therein for individual differences. The school operates as a partner with the home and community.

## Statement of District Goals

- Develop reading, writing, speaking, listening, and mathematical skills.
- Develop a pride in work and a feeling of self-worth, self-reliance, and self discipline.
- Acquire and use the skills and habits involved in critical and constructive thinking.
- Develop a code of behavior based on moral and ethical principals.
- Work with others cooperatively.
- Acquire a knowledge and appreciation of the historical record of human achievement and failures and current societal issues.
- Acquire a knowledge and understanding of the physical and biological sciences.
- Participate effectively and efficiently in economic life and the development of skills to enter a specific field of work.
- Appreciate and understand literature, art, music, and other cultural activities.
- Develop an understanding of the historical and cultural heritage.
- Develop a concern for the proper use and/or preservation of natural resources.
- Develop basic skills in sports and other forms of recreation.

## **Introduction**

Health Education is a NJ requirement mandated yearly for every high school student. Our Health Education Curriculum aligns itself with New Jersey Core Curriculum Standards set forth by the New Jersey Department of Education. The Township of Union Public Schools recognizes that health is a state of physical, mental and social well being, not merely the absence of disease. Health education focuses on the art of living, recognizing heredity, environment, values, and personal care as key factors.

Students are empowered with critical information that enables them to make healthy choices using up to date and factual information for both the present and future. The aim of our program is to favorably influence knowledge, attitudes, and practices relating to the individual, family and community. The curriculum is designed to motivate and assist students to maintain and improve their overall health and wellness. This comprehensive curriculum is designed to prepare students for the future beyond their high school years.

## **Teaching for Diversity**

It is critical that all teaching staff provide equity in their educational program. Students must be afforded the opportunity to interact positively with each other regardless of race, creed, color, national origin, ancestry, age, marital status, affection or sexual orientation, gender, religion, disability or socioeconomic status.

Lessons designed must address the following diversity indicators:

- All persons, groups, and cultures will be presented in a fair and objective manner.
- Texts and instructional materials are void of bias and stereotyping.
- Language reflects objectivity and is free of bias and offensive terminology.
- Pictures and illustrations reflect diversity.
- Present information from multiple perspectives if possible.
- Objectives and strategies are inclusive and target the student population to be served.
- Teaching styles are adjusted to meet the learning styles of the students.
- Instruction provides opportunity for cooperation rather than competition.
- Instruction is performance based whenever possible, allowing students the opportunity to demonstrate their learning in a variety of ways.
- Significant opportunities for students to reflect on their learning are provided.

## **Career Awareness and Consumer, Family, and Life Skills**

New Jersey Core Curriculum Content Standard 9.1 and 9.2 state that all students must develop career awareness and planning, employability skills and foundational knowledge necessary for success in the workplace and demonstrate critical life skills in order to be functional members of society. To be most effective, these skills should be integrated throughout all curricula. Lessons shall include career and technical education focusing on career awareness and planning, along with employability skills. In addition, consumer, family, and life skills will focus on critical thinking, self-management, interpersonal communication, character development and education, consumer and personal finance and safety.

## **Technological Literacy**

New Jersey Core Curriculum Content Standard 8.1 mandates that all students use computer applications to gather and organize information. Within all content areas, students should utilize computer and information literacy, which supports competency in information gathering, information organizing and problem solving. These are essential lifelong learning skills.

## **Technology Vision/Mission Statement**

The Township of Union Public School System is committed to utilizing the resources made available by modern technology to enhance and enrich learning opportunities for our students. Our vision is to continue to provide a technologically rich environment by incorporating technology into all aspects of learning, integrating learning theories based on the inclusion and effects that technology has had on daily lives. We envision continually increasing the effectiveness of our technology via our educators and support staff. The Board accepts technological resources as vital tools for learning and working in a modern society, and feels technology should be an integral part of all programs and departments in the school district. Such a commitment shall include, but not necessarily be limited to, continual restructuring of the curriculum to increasingly incorporate technology as an enhancement to learning, further supporting the New Jersey Core Content Curriculum Standards (NJCCCS). We will continue to increase the amount and depth of staff training, to assure all personnel are comfortable and confident with the technology available in the district. We will continually provide LANs and WANs for inter and intra-district communication, controlled access to the Internet offer district email, and maintain an on-line student information data-base to be utilized by both parents and staff.

In addition, New Jersey's membership in the Partnership for Assessment Readiness for College and Careers (PARCC) has given new focus on the technology requirements available to our students. The new K-12 on-line assessments are designed to measure student readiness for college and careers. Our vision is having both technology and students be prepared for the anticipated 2014-2015 school year administration of the PARCC assessments.

Technological resources are intended to enhance the delivery of instruction. Our technology will support all areas of curriculum, as well as the educational and administrative needs of students, staff, and district personnel. Through the Board of Education's investment, the school community will be empowered to use technology as a tool for learning, a means of expanding access to information, and as a methodology for processing information in more productive and stimulating environment.

## **Union Township Board of Education Technology Standards:**

Students shall have the ability to design, develop, publish, and present (presentations, web pages, documents) that demonstrate and communicate curriculum concepts to audiences inside and outside of the classroom. Students shall also have the ability to select and apply technology tools for research, information analysis, problem solving, and decision-making in content learning.

*Students at all grade levels, K-12 will*

1. Understand basic technology operation and concepts.
  - 1.1 Demonstrate a sound understanding of the operation of technology systems.
  - 1.2 Develop sufficient skills to successfully use technology tools in daily life, work situations and learning environments.
  - 1.3 Discriminate among a variety of technologies and media to select appropriate technology for specific purposes.
2. Use technology responsibly and ethically.
  - 2.1 Practice responsible use of technology systems, information and software.
  - 2.2 Understand the ethical, cultural, environmental and societal implications of technology and telecommunications.
3. Use technology to communicate effectively and creatively.
  - 3.1 Use a variety of media and formats to communicate information and ideas effectively to multiple audiences.
  - 3.2 Create, produce and present ideas in a variety of forms, including text, video, graphics and conversation.
4. Use technology for thinking, learning and producing.
  - 4.1 Enhance content-area learning with technology-infused lessons.
  - 4.2 Construct new meaning and knowledge by combining and synthesizing different types of information.
  - 4.3 Use computer modeling, image processing, and simulations and data manipulation to develop understanding.
  - 4.4 Use a variety of tools to produce quality products.
5. Use technology for research, problem solving and decision-making.
  - 5.1 Use technology to locate, evaluate, collect and organize information from a variety of sources.
  - 5.2 Review information analytically and transform it into useful knowledge to solve problems.
  - 5.3 Work with a group to collaboratively solve a problem.

**UNION TOWNSHIP MIDDLE SCHOOLS**  
**HEALTH EDUCATION CURRICULUM OUTLINE**  
**(Based on the New Jersey Core Curriculum Content Standards)**

**Health Education – Grade 5**

**Unit #1 Wellness (uses Chapters 1,2, 4,5, 6,7, 8, 11 in book)**

- Mental, Physical, & Social Health
- HIV/AIDS
- Asthma
- Communicable & Non Communicable Diseases
- Hygiene
- Nutrition

**Unit #2 Alcohol, Tobacco, Other Drugs (uses Chapter 9, 10 in book)**

- Alcohol & Inhalants

**Unit #3 Family Life (Uses Chapter 3 in book)**

- Family & Peer Relationships

**Unit #4 Community Health Skills (Uses Chapter 3, 12 in book)**

- Conflict Resolution
- Manners
- Respect
- Bicycle Safety, Fire Safety, Home Safety, Travel/Seat Belt Safety
- Water Safety

**Health Education Grade 5**  
**Township of Union Public Schools**  
**December 2015**

## **Health Education Grade 5 Course Descriptions:**

This curriculum is a comprehensive program that is designed to assist the students in developing a healthy attitude, respect for themselves and others, and a true appreciation of life. Our ultimate goal is to supplement and expand the positive attitudes already established in the home.

The curriculum is divided into three sections:

1. Growth and Development Unit will teach students about their body systems, emotions social relationships and decision making skills.
2. Body Care and Maintenance Unit will focus on increasing the students' awareness of proper nutrition, health related fitness, proper health habits, safety, drug education, and prevention of transmission of communicable diseases.
3. The Family Unit will explain different kinds of families and that all family members have rights, privileges and responsibilities.

It is our hope that the foundation this knowledge builds will lead to each student's increased awareness of health and diseases, risk taking behaviors, responsible personal decision making, interpersonal relationships, and the family in today's society. This will better the chance of our students using their increased awareness in making decisions that will provide for a healthier way of life.

## Recommended Texts

Bronson, M, Cleary, M, & Hubbard, B. (2009). *Glencoe Teen Health*. Course 1 Woodland Hills, CA: McGraw Hill

## Grade 5 Course Proficiencies

*Students will be able to:*

- Compliment and supplement the knowledge already learned at home.
- Develop an understanding of the three sides of the health triangle and know examples of each.
- Develop an understanding that the three sides of the health triangle are connected, and if one side changes the other two are affected.
- Explain how wellness is related to the health triangle.
- Develop decision making skills to make healthy choices.
- Develop an understanding of healthy and non healthy eating habits.
- Identify the traits of good character and explain how to practice the main traits of good character and good manners.
- Know and understand positive lifestyle factors.
- Explain traits of good mental and emotional health and acquire skills to build self esteem, manage anger, manage stress, and cope with personal loss.
- Develop an understanding of the difference between positive and negative peer pressure.
- Develop an understanding of the risks of negative peer pressure and develop refusal skills to resist negative peer pressure.
- Develop an understanding of how to build strong, healthy relationships.
- Develop skills to prevent and resolve conflicts.
- Develop an understanding of the responsibilities within a family.
- Describe the responsibilities involved in being a parent.
- Identify the consequences of not following safety procedures for bicycles, cars, home, water, fire and travel scenarios.
- Develop an understanding of what an inhalant is and how one can become addicted?
- Be able to identify reasons not to use alcohol and inhalants.

Course 1**

<b>Essential Questions</b>	<b>CPI #</b>	<b>CPI</b>	<b>Suggested Activity</b>	<b>Pacing</b>	<b>Assessment</b>
What is a role when speaking in terms of relationships?	2.4.6. A.1	Compare and contrast how families may change over time.	Who are you? Worksheet	2 days	Written examination  Oral presentation  Current event article  Role Play
What are some needs that relationships meet?	2.4.6. A.2	Analyze the characteristics of healthy friendships and other relationships.	Who are you? Oral presentation		
Which character traits are found in strong, healthy relationships?	2.4.6. A.3	Examine the types of relationships adolescents may experience.	Design your family tree project. Identify changes in relationships with parents, grand parents, siblings, etc.		
What is a blended family?	2.4.6. A.4	Demonstrate successful resolution of a problem(s) among friends and in other relationships.	Improving communication with parents worksheet		
Name two physical needs that a family provides?	2.4.6. A.5	Compare and contrast the role of dating and dating behaviors in adolescence.	Role plays scenarios designated by the teacher.		
What can a teen do to cope with family changes?			Present article on healthy relationship styles.		

**Content: Human Growth and Development**

**Text: Glencoe Teen Health  
Course 1**

<b>Essential Questions</b>	<b>CPI #</b>	<b>CPI</b>	<b>Suggested Activity</b>	<b>Pacing</b>	<b>Assessment</b>
What is Puberty?	2.4.6.B.1	Compare growth patterns of males and females during adolescence.	Question Box – students anonymously ask questions without embarrassment.	2 days	Written examination
What are the four main stages of childhood?	2.4.6.B.2	Summarize strategies to remain abstinent and resist pressures to become sexually active.	Research teen magazines and websites, in what ways do they try to influence teens? Report out to class.		Rubric grading sheet
List three physical changes that females experience during puberty, and three that males experience?	2.4.6.B.3	Determine behaviors that place one at risk for HIV/AIDS, <a href="#">STIs</a> , <a href="#">HPV</a> , or unintended pregnancy	Goal setting worksheet – chooses a goal and graph how to achieve that goal.		Current event article
Why is it important for adults to support and encourage children?	2.4.6.B.4	Predict the possible physical, social, and emotional impacts of adolescent decisions regarding sexual behavior.	Love and Infatuation worksheet  Promoting a Healthy Sexual Identity worksheet.		

**Content: Manners**

**Text: Glencoe Teen Health  
Course 1**

<b>Essential Questions</b>	<b>CPI #</b>	<b>CPI</b>	<b>Suggested Activity</b>	<b>Pacing</b>	<b>Assessment</b>
<p>What does it mean to have manners?</p> <p>What are some key terms to describe a person with manners?</p> <p>How can you assess the level of manners for friends and family?</p> <p>What are the benefits of being a person with manners?</p> <p>How does a person with manners contribute to your community?</p>	<p>2.2.6.A.1</p> <p>2.2.6.A.2</p> <p>2.2.6.C.1</p> <p>2.2.6.C.2</p>	<p>Demonstrate verbal and nonverbal interpersonal communication in various settings that impact the health of oneself and others.</p> <p>Demonstrate use of refusal, negotiation, and assertiveness skills in different situations.</p> <p>Explain how character and core ethical values can be useful in addressing challenging situations.</p> <p>Predict situations that may challenge an individual's core ethical values.</p>	<p>Brainstorm the definition of manners.</p> <p>Create a list of Do's and Don'ts for manners.</p> <p>Plan service project to be completed at home to demonstrate manners.</p> <p>Create posters illustrating acts of using manners.</p> <p>Analyze actions of people in the news or on television that use manners.</p>	<p>6 days</p>	<p>Written exam</p> <p>Group skit project</p> <p>Service project</p> <p>Poster</p>

**Content: Mental, Physical & Social Health**

**Text: Glencoe Teen Health Course 1**

<b>Essential Questions</b>	<b>CPI #</b>	<b>CPI</b>	<b>Suggested Activity</b>	<b>Pacing</b>	<b>Assessment</b>
How are basic physical fitness skills for life obtained?	2.1.6.E.1	Examine how <a href="#">personal assets</a> and <a href="#">protective factors</a> support healthy social and emotional development.	In groups or individually the students will practice the skills for each fitness exercise.	3 days	Demonstrate on a written test, knowledge of the terminology for overall wellness.
What areas of the body are developed through overall wellness?	2.2.6.A.1	Demonstrate verbal and nonverbal interpersonal communication in various settings that impact the health of oneself and others.	The students will be given a terminology sheet of each fitness exercise to learn, and reviewed by the teacher.		Demonstrate the ability to execute the basic fundamental skills of each physical fitness exercise during skills test.
How is body mass index learned and obtained?	2.2.6.B.4	Apply personal health data and information to support achievement of one's short- and long-term health goals.	The students will demonstrate their knowledge of social health in directed scenarios.		Demonstrate the ability to apply the basic mental and social health aspects during individual fitness exercises and during a group fitness workout.
What are the proper techniques used in daily life to develop social health?			The students will demonstrate the use of mental health used in a sport or activity.		
How does your mental health affect your overall wellness?					

**Content: Respect**

**Text: Glencoe Teen Health Course 1**

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What does it mean to be tolerant of another person?	2.2.6.A.1	Demonstrate verbal and nonverbal interpersonal communication in various settings that impact the health of oneself and others.	Students will engage in role play activities utilizing their learned terminology	7 days	Written exam  Current event articles  Oral presentation
How can you demonstrate good manners and avoid bad language?	2.2.6.A.2	Demonstrate use of refusal, negotiation, and assertiveness skills in different situations.	Students will research issues related to respect in current event articles.		
What does it mean to be considerate of another person's feelings?	2.2.6.C.1	Explain how character and core ethical values can be useful in addressing challenging situations.	Students will give an oral presentation related to their experiences with respect.		
How can you deal peacefully with anger, insults and disagreements?	2.2.6.C.2	Predict situations that may challenge an individual's core ethical values.	Students will create letters that seek advice, classmates will respond.		
What is respect?			Students will generate a list of behaviors that demonstrate respect and disrespect.

## 2009 New Jersey Core Curriculum Content Standards - Comprehensive Health and Physical Education

<b>Content Area</b>	<b>Comprehensive Health and Physical Education</b>		
<b>Standard</b>	<b>2.1 Wellness: All students will acquire health promotion concepts and skills to support a healthy, active lifestyle.</b>		
<b>Strand</b>	<b>A. Personal Growth and Development</b>		
<b>By the end of grade</b>	<b>Content Statement</b>	<b>CPI#</b>	<b>Cumulative Progress Indicator (CPI)</b>
P	Developing self-help skills and personal hygiene skills promotes healthy habits.	2.1.P.A.1	Develop an awareness of healthy habits (e.g., use clean tissues, wash hands, handle food hygienically, brush teeth, and dress appropriately for the weather).
		2.1.P.A.2	Demonstrate emerging self-help skills (e.g., develop independence when pouring, serving, and using utensils and when dressing and brushing teeth).
2	Health-enhancing behaviors contribute to wellness.	2.1.2.A.1	Explain what being "well" means and identify self-care practices that support wellness.
		2.1.2.A.2	Use correct terminology to identify body parts, and explain how body parts work together to support wellness.
4	The dimensions of wellness are interrelated and impact overall personal well-being.	2.1.4.A.1	Explain the physical, social, emotional, and mental dimensions of personal wellness and how they interact.
		2.1.4.A.2	Determine the relationship of personal health practices and behaviors on an individual's body systems.

<b>By the end of grade</b>	<b>Content Statement</b>	<b>CPI#</b>	<b>Cumulative Progress Indicator (CPI)</b>
6	Staying healthy is a lifelong process that includes all dimensions of wellness.	2.1.6.A.1	Explain how health data can be used to assess and improve each dimension of personal wellness.
		2.1.6.A.2	Relate how personal lifestyle habits, environment, and heredity influence growth and development in each life stage.
		2.1.6.A.3	Determine factors that influence the purchase of healthcare products and use of personal hygiene practices.
8	Developing and maintaining wellness requires ongoing evaluation of factors impacting health and modifying lifestyle behaviors accordingly.	2.1.8.A.1	Assess and apply health data to enhance each dimension of personal wellness.
		2.1.8.A.2	Compare and contrast the impact of genetics, family history, personal health practices, and environment on personal growth and development in each life stage.
		2.1.8.A.3	Relate advances in technology to maintaining and improving personal health.
		2.1.8.A.4	Determine the impact of marketing techniques on the use of personal hygiene products, practices, and services.
12	Developing and maintaining wellness requires ongoing evaluation of factors impacting health and modifying lifestyle behaviors accordingly.	2.1.12.A.1	Analyze the role of personal responsibility in maintaining and enhancing personal, family, community, and global wellness.
		2.1.12.A.2	Debate the social and ethical implications of the availability and use of technology and medical advances to support wellness.

		2.6.4.A.2	Participate in moderate to vigorous age-appropriate activities that address each component of health-related and <a href="#">skill-related fitness</a> .
		2.6.4.A.3	Develop a <a href="#">health-related fitness</a> goal and track progress using health/fitness indicators.

		2.6.4.A.4	Determine the extent to which different factors influence personal fitness, such as heredity, training, diet, and technology.
6	Knowing and applying a variety of effective fitness principles over time enhances personal fitness level, performance, and health status.	2.6.6.A.1	Analyze the social, emotional, and health benefits of selected physical experiences.
		2.6.6.A.2	Determine to what extent various activities improve <a href="#">skill-related fitness</a> versus <a href="#">health-related fitness</a> .
		2.6.6.A.3	Develop and implement a fitness plan based on the assessment of one's personal fitness level, and monitor health/fitness indicators before, during, and after the program.
		2.6.6.A.4	Predict how factors such as health status, interests, environmental conditions, and available time may impact personal fitness.
		2.6.6.A.5	Relate physical activity, healthy eating, and body composition to personal fitness and health.
		2.6.6.A.6	Explain and apply the training principles of frequency, intensity, time, and type ( <a href="#">FITT</a> ) to improve personal fitness.
		2.6.6.A.7	Evaluate the short- and long-term effects of anabolic steroids and other performance-enhancing substances on personal health.
8	Knowing and applying a variety of effective training principles over time enhances personal fitness level, performance, and health status.	2.6.8.A.1	Summarize the short- and long-term physical, social, and emotional benefits of regular physical activity.
		2.6.8.A.2	Use health data to develop and implement a personal fitness plan and evaluate its effectiveness.
		2.6.8.A.3	Analyze how medical and technological advances impact personal fitness.

		2.6.8.A.4	Determine ways to achieve a healthy body composition through healthy eating, physical activity, and other lifestyle behaviors.
		2.6.8.A.5	Use the primary principles of training ( <a href="#">FITT</a> ) for the purposes of modifying personal levels of fitness.
		2.6.8.A.6	Determine the physical, behavioral, legal, and ethical consequences of the use of anabolic steroids and other performance-enhancing substances.
12	Taking personal responsibility to develop and maintain physical activity levels provides opportunities for increased health, fitness, enjoyment, challenges, self-expression, and social interaction.	2.6.12.A.1	Compare the short- and long-term impact on wellness associated with physical inactivity.
		2.6.12.A.2	Design, implement, and evaluate a fitness plan that reflects knowledge and application of fitness-training principles.
		2.6.12.A.3	Determine the role of genetics, gender, age, nutrition, activity level, and exercise type on body composition.
		2.6.12.A.4	Compare and contrast the impact of <a href="#">health-related fitness</a> components as a measure of fitness and health.
		2.6.12.A.5	Debate the use of performance-enhancing substances (i.e., anabolic steroids and other legal and illegal substances) to improve performance.

## **DIFFERENT KINDS OF FAMILIES**

*Different kinds of families* refers to the many family structures represented in classrooms and in society today, including, but not limited to: A traditional two-parent (i.e., mother and father) families, blended families, single-parent families, multi-racial families, multi-generational families, and same-sex-parent families.

## **ESSENTIAL ELEMENTS OF MOVEMENT SKILLS**

*Essential elements of movement* mean the knowledge and demonstration of mechanically correct technique when executing a movement skill.

## **FITT**

*FITT* stands for the basic philosophy of what is necessary to gain a training effect from an exercise program. The FITT acronym represents:

1. Frequency-How often a person exercises
2. Intensity-How hard a person exercises
3. Time-How long a person exercises
4. Type-What type of activity a person does when exercising

## **HEALTH-RELATED FITNESS**

*Health-related fitness* incorporates the five major components of fitness related to improved health:

1. *Cardio-respiratory endurance* is the ability of the blood vessels, heart, and lungs to take in, transport, and utilize oxygen. This is a critically important component of fitness because it impacts other components of fitness and decreases the risk of cardiovascular diseases.
2. *Muscular strength* is the maximum amount of force a muscle or muscle group can exert.
3. *Muscular endurance* is the length of time a muscle or muscle group can exert force prior to fatigue.
4. *Flexibility* refers to the range of motion in the joints.
5. *Body composition* shows the amount of fat versus lean mass (bone, muscle, connective tissue, and fluids). While some fat is essential for insulation and providing energy, too much fat can cause serious health problems.

## **HPV**

*Human papillomavirus (HPV)* is a common virus that infects the skin and mucous membranes. There are about 100 types of HPV, and approximately 30 of those are spread through genital contact (typically sexual intercourse). Around 12 types - called “low-risk” types of HPV - can cause genital warts. In addition, there are approximately 15 “high-risk” types of HPV that can cause cervical cancer. Infection with the common types of “genital” HPV can be prevented with the HPV vaccine. However, vaccination is only fully effective if administered before a girl or young woman has been exposed to those types of HPV through sexual contact. In addition, the vaccine does not protect against all types of HPV that can cause cervical cancer.

## **INTENTIONAL AND UNINTENTIONAL INJURIES**

*Intentional injuries* are injuries arising from purposeful action (e.g., violence and suicide).

*Unintentional injuries* are injuries arising from unintentional events (e.g., motor vehicle crashes and fires).

## **MOVEMENT SKILLS**

*Movement skills* encompass locomotor, non-locomotor, and manipulative movement:

1. *Locomotor movement* occurs when an individual moves from one place to another or projects the body upward (e.g., walking, jumping, skipping, galloping, hopping, jumping, sliding, running).
2. *Non-locomotor movement* occurs when an individual moves in self-space without appreciable movement from place to place. (e.g., twisting, bending, stretching, curling)
3. *Manipulative movement* occurs when an individual controls a variety of objects with different body parts. (e.g., throwing, catching, kicking, striking, dribbling)

## **PERSONAL ASSETS**

*Personal assets* refer to individual strengths and weaknesses regarding personal growth.

## **PROTECTIVE FACTORS**

*Protective factors* refer to the skills, strengths, and resources that help individuals deal more effectively with stressful situations.

## **RESILIENCY**

*Resiliency* is the ability to overcome the negative effects of risk exposure.

## **SERVICE PROJECTS**

*Service projects* are initiatives that represent relevant social and civic needs.

## **SKILL-RELATED FITNESS**

*Skill-related fitness* refers to components of physical fitness that contribute to the ability to successfully participate in sports:

1. *Agility* is the ability to rapidly and accurately change the direction of the whole body while moving in space.
2. *Balance* is the ability to maintain equilibrium while stationary or moving.
3. *Coordination* is the ability to use the senses and body parts in order to perform motor tasks smoothly and accurately.
4. *Power* is the amount of force a muscle can exert over time.
5. *Reaction time* is the ability to respond quickly to stimuli.
6. *Speed* is the amount of time it takes the body to perform specific tasks while moving.

## **STIS**

*Sexually transmitted infection (STI)*, also known as sexually transmitted disease (STD), is an illness that has a significant probability of transmission between humans or animals by means of sexual contact, including vaginal intercourse, oral sex, and anal sex.

## **TRAFFIC SAFETY SYSTEM**

*Traffic safety system* refers to the concept of traffic (moving people safely and efficiently), the specific components of the traffic safety system (e.g., laws, safety, signs, travel modes, routes, and responsibilities), and the people who are part of the traffic safety system (e.g., walkers, bicyclists, police, and automobile, bus, and train operators).
