## **Mission Statement**

The Township of Union Board of Education believes that every child is entitled to an education designed to meet his or her individual needs in an environment that is conducive to learning. State standards, federal and state mandates, and local goals and objectives, along with community input, must be reviewed and evaluated on a regular basis to ensure that an atmosphere of learning is both encouraged and implemented. Furthermore, any disruption to or interference with a healthy and safe educational environment must be addressed, corrected, or when necessary, removed in order for the district to maintain the appropriate educational setting.

## **Philosophy Statement**

The Township of Union Public School District, as a societal agency, reflects democratic ideals and concepts through its educational practices. It is the belief of the Board of Education that a primary function of the Township of Union Public School System is to formulate a learning climate conducive to the needs of all students in general, providing therein for individual differences. The school operates as a partner with the home and community.

## **Statement of District Goals**

- **Develop reading, writing, speaking, listening, and mathematical skills.**
- **Develop a pride in work and a feeling of self-worth, self-reliance, and self-discipline.**
- **Acquire and use the skills and habits involved in critical and constructive thinking.**
- **Develop a code of behavior based on moral and ethical principles.**
- **Work with others cooperatively.**
- **Acquire a knowledge and appreciation of the historical record of human achievement and failures and current societal issues.**
- **Acquire a knowledge and understanding of the physical and biological sciences.**
- **Participate effectively and efficiently in economic life and the development of skills to enter a specific field of work.**
- **Appreciate and understand literature, art, music, and other cultural activities.**
- **Develop an understanding of the historical and cultural heritage.**
- **Develop a concern for the proper use and/or preservation of natural resources.**
- **Develop basic skills in sports and other forms of recreation.**

## **Course Description**

Students will be exposed to this Hispanic culture through an understanding of Spanish vocabulary. Spanish instruction at the elementary school level provides students with an exposure to thematically organized vocabulary, simple grammar structures, and cultural elements that serve as the foundation for more rigorous formal instruction at the middle and high school levels. Spanish lessons at the elementary school level are designed to afford students an opportunity to acquire confidence in speaking and writing simple Spanish words and phrases, and recognizing these words and phrases when they are spoken. Some lessons develop students' language skills in a recursive manner, as they provide cumulative reinforcement of previously introduced material.

Designated units are identified for each grade level to permit the spiraling and reinforcement of skills leading to proficiency. By the end of Grade 5, students will have acquired a basic set of thematically-based vocabulary and idioms to discuss basic daily events, ask and respond to simple questions, greet people, identify school-based locations, and understand calendar and number words. The curriculum aims to engage students in authentic communication while developing their appreciation of a different cultural medium. Instruction reinforces language concepts in creative and dynamic ways that support ongoing language acquisition and a respect for diverse cultural practices by using various audio and visual materials. Students develop basic writing skills through workbook exercises and simple note taking that strengthen their ability to synthesize language and apply it in new contexts. Spanish instruction is aligned with the New Jersey World Languages Core Curriculum Content Standards
