### Regional Center for Learning Disabilities Here is what's happening in April.

Greetings to you all. First and foremost, I hope you are all well and managing during this unique academic year. Thank you for continuing to send students our way to learn about the Regional Center.

We continue to strive to provide as much access to information about our program as possible so that student's preparing for their transition to college can learn about services at FDU. Please share this information with any colleagues, families and students who may be interested.

*Please see the April dates below for upcoming information sessions. These are all being held virtually.*

Any interested professional, parent and student can send an email to register for the event. A link for a Zoom invite will be sent prior to the event once they register.
