

AP Statistics – Summer Assignment

Your summer assignment comes from the textbook we will be using all year long. You can find the textbook at <http://www.phschool.com/>

Once you go to the above URL, you will need to put the following Web Code:

AZE – 0641

If for any reason you are having issues logging onto the online textbook, please e-mail me over the summer to dalvear@twpunionschools.org (Try to log in and download the pdf files early in the summer as I will be out of the country and might take a few days to reply – the questions should only pertain to technology issues)

Assignment

Read Chapter 2, 3, and 4 over the summer. The book uses the word ‘chapter’ in place of ‘Section’ and the word ‘Part’ for what we are used to consider as a ‘chapter’. There are 7 parts to the book and each part is broken into multiple chapters. As you finish reading each chapter, answer the corresponding questions below.

Chapter 2 –Pg. 16 #'s: 1, 2, 3, 9, 15

Chapter 3 – Pg. 38 #'s: 5, 6, 9, 11, 14, 16, 25, 35

Chapter 4 – Pg. 72 #'s: 5, 11, 13, 15

The answers to all questions are in the textbook Under Appendix C.

During the second day of classes, you will be given a test on the 3 chapters. The questions will be almost identical to the ones given above.

Make sure you pace yourself over the summer as it will take some time to go over all the chapters and understand them to the point that you can answer the questions. Make sure you check your answers in Appendix C to reflect on your work. The key to the success of this class will be in your dedication, preparation, and reflection skills. I strongly suggest that you also read over chapters 5 and 6.

I am looking forward to an amazing year with you all.

Mr. Alvear
