September 9, 2020

To Whom It May Concern:

The Township of Union Schools has taken precautions to prevent the spread of COVID-19 (coronavirus) by beginning the school year 100% remote education for all Township of Union Public School students. We will reassess the need to remain 100% remote for all students by October 15th. At which point, we anticipate the ability to facilitate a hybrid program (2 days in-person schooling, 3 days virtual) by November 1st.

School has officially begun today, September 9th. Parents will need to assist their students in communicating with their teachers and facilitating the remote learning plan throughout the duration of remote learning.

This letter serves as documentation for families to provide to their employer for leave to remain with their students while schools are closed. If more specific information is needed parents may contact my assistant, Julia Vicidomini, at jvicidomini@twpunionschools.org to make a request.

As we are able to provide updates to our reopening plan, all parents will be updated accordingly.

Sincerely,

Gregory Tatum
Superintendent
