Mission Statement

The mission of the Township of Union Public Schools is to build on the foundations of honesty, excellence, integrity, strong family, and community partnerships. We promote a supportive learning environment where all students are challenged, inspired, empowered, and respected as diverse learners. Through cultivation of students' intellectual curiosity, skills and knowledge, our students can achieve academically and socially as well as contribute as responsible and productive citizens of our global community.

Mission Statement **Visual & Performing Arts**

The Township of Union Visual & Performing Arts Department strives:
To create an arts' community that is rich with cultural, social & intellectual diversity..... And, through collaborative partnerships between teachers, parents and members of the community at large, offer substantive art & music instruction and diverse artistic and performance opportunities for students of all ages.

Arts Vision Statement

The Township of Union Department of Visual and Performing Arts is committed to increasing opportunities for all students K-12 to participate in and understand the arts.

We all share the common belief that the arts are one of humanity's most eloquent means of understanding the world. Through the arts, we share the highest achievements of every culture and find a universal language which permits communication among all peoples. As such, the arts are an essential component of a complete education.

Through the years, studies have discovered that the inclusion of the performing arts in a broad-based curriculum improves the quality of a child's educational experience. The arts teach discipline, improve self-esteem, inspire creativity, and help young people to set and reach goals. Knowledge of the arts makes our district a challenging place where our children are encouraged to explore, to create, and to reach their full potential.

Statement of District Goals

- Develop reading, writing, speaking, listening, and mathematical skills.
- Develop a pride in work and a feeling of self-worth, self-reliance, and self discipline.
- Acquire and use the skills and habits involved in critical and constructive thinking.
- Develop a code of behavior based on moral and ethical principals.
- Work with others cooperatively.
- Acquire a knowledge and appreciation of the historical record of human achievement and failures and current societal issues.
- Acquire a knowledge and understanding of the physical and biological sciences.
- Participate effectively and efficiently in economic life and the development of skills to enter a specific field of work.
- Appreciate and understand literature, art, music, and other cultural activities.
- Develop an understanding of the historical and cultural heritage.
- Develop a concern for the proper use and/or preservation of natural resources.
- Develop basic skills in sports and other forms of recreation.

OVERVIEW OF CURRICULUM GUIDE

This curriculum guide includes weekly lesson plans, proficiency levels, materials and assessment standards.

These areas are addressed by grade levels nine through twelve. The plans are structured through the academic year with guidelines of when each element of music is taught and which topics are included. Music educators are responsible for creating effective lessons designed to accommodate all learning levels for all students in our district. Core Curriculum Content Standards for the State of New Jersey are noted for each area of learning and are subject to alterations as Standards are revised. New Jersey Core Curriculum Content Standards are included and noted.

Areas of content include the elements of music: expression, rhythm, form, melody, tempo, harmony, dynamics, texture and timbre. A focus is also made on proper instrumental playing technique including posture, hand position, articulation, breathing techniques and tonguing. Elements of music theory including key signatures, scales, form and transpositions are also included. Music history and cultural connections as well as reading skills are documented in the written plans. All New Jersey NJSLS# are noted at the beginning of each lesson. National Standards are noted with the activities for each lesson. Assessment tools for each lesson are located at the end of the activities and at the conclusion of each unit.

Purpose

The purpose of this guide is to present a sequential plan in the area of Wind Ensemble. This performance-based curriculum includes lessons in creating, performing and critiquing concert band literature, as well as historical and cultural aspects of the performance genre. Each lesson is designed to allow students to experience skill building, personal expression and self-confidence in all areas of performance.

This guide may be revised as specified to meet the standards and provide optimal educational opportunities. Modifications are adaptations can be utilized to promote differentiated learning for all students. This performing arts curriculum accommodates and empowers a multitude of learning styles and abilities. The sequential format of skill-building lessons will provide the basis for continuity, understanding and accomplishment in the area of performing arts.

New Jersey Student Learning Standards

Standard 9

21st Century Life and Careers

In today's global economy, students need to be lifelong learners who have the knowledge and skills to adapt to an evolving workplace and world. To address these demands, Standard 9, 21st Century Life and Careers, which includes the 12 Career Ready Practices, establishes clear guidelines for what students need to know and be able to do in order to be successful in their future careers and to achieve financial independence.

Mission: *21st century life and career skills enable students to make informed decisions that prepare them to engage as active citizens in a dynamic global society and to successfully meet the challenges and opportunities of the 21st century global workplace.*

Vision: To integrate 21st Century life and career skills across the K-12 curriculum and to foster a population that:

- Continually self-reflects and seeks to improve the essential life and career practices that lead to success.
- Uses effective communication and collaboration skills and resources to interact with a global society.
- Is financially literate and financially responsible at home and in the broader community.
- Is knowledgeable about careers and can plan, execute, and alter career goals in response to changing societal and economic conditions.
- Seeks to attain skill and content mastery to achieve success in a chosen career path.

Career Ready Practices

Career Ready Practices describe the career-ready skills that all educators in all content areas should seek to develop in their students. They are practices that have been linked to increase college, career, and life success. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

- CRP1.** Act as a responsible and contributing citizen and employee.
- CRP2.** Apply appropriate academic and technical skills.
- CRP3.** Attend to personal health and financial well-being.
- CRP4.** Communicate clearly and effectively and with reason.
- CRP5.** Consider the environmental, social and economic impacts of decisions.
- CRP6.** Demonstrate creativity and innovation.
- CRP7.** Employ valid and reliable research strategies.
- CRP8.** Utilize critical thinking to make sense of problems and persevere in solving them.
- CRP9.** Model integrity, ethical leadership and effective management.
- CRP10.** Plan education and career paths aligned to personal goals.
- CRP11.** Use technology to enhance productivity.
- CRP12.** Work productively in teams while using cultural global competence.

CRP1. Act as a responsible and contributing citizen and employee.

Career-ready individuals understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in

ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.

CRP2. Apply appropriate academic and technical skills.

Career-ready individuals readily access and use the knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation.

CRP3. Attend to personal health and financial well-being.

Career-ready individuals understand the relationship between personal health, workplace performance and personal well-being; they act on that understanding to regularly practice healthy diet, exercise and mental health activities. Career-ready individuals also take regular action to contribute to their personal financial wellbeing, understanding that personal financial security provides the peace of mind required to contribute more fully to their own career success.

CRP4. Communicate clearly and effectively and with reason.

Career-ready individuals communicate thoughts, ideas, and action plans with clarity, whether using written, verbal, and/or visual methods. They communicate in the workplace with clarity and purpose to make maximum use of their own and others' time. They are excellent writers; they master conventions, word choice, and organization, and use effective tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.

CRP5. Consider the environmental, social and economic impacts of decisions.

Career-ready individuals understand the interrelated nature of their actions and regularly make decisions that positively impact and/or mitigate negative impact on other people, organization, and the environment. They are aware of and utilize new technologies,

understandings, procedures, materials, and regulations affecting the nature of their work as it relates to the impact on the social condition, the environment and the profitability of the organization.

CRP6. Demonstrate creativity and innovation.

Career-ready individuals regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas and suggestions as solutions to issues, tasks or problems, and they discern which ideas and suggestions will add greatest value. They seek new methods, practices, and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.

CRP7. Employ valid and reliable research strategies.

Career-ready individuals are discerning in accepting and using new information to make decisions, changes. They use reliable research process to search for new information. They evaluate the validity of sources when considering the use and adoption of external information or practices in their workplace situation.

CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.

Career-ready individuals readily recognize problems in the workplace, understand the nature of the problem, and devise effective plans to solve the problem. They are aware of problems when they occur and take action quickly to address the problem; they thoughtfully investigate the root cause of the problem prior to introducing solutions. They carefully consider the options to solve the problem. Once a solution is agreed upon, they follow through to ensure the problem is solved, whether through their own actions or the actions of others.

CRP9. Model integrity, ethical leadership and effective management.

Career-ready individuals consistently act in ways that align personal and community-held ideals and principles while employing strategies to positively influence others in the workplace. They have a clear understanding of integrity and act on this understanding

in every decision. They use a variety of means to positively impact the directions and actions of a team or organization, and they apply insights into human behavior to change others' action, attitudes and/or beliefs. They recognize the near-term and long-term effects that management's actions and attitudes can have on productivity, morals and organizational culture.

CRP10. Plan education and career paths aligned to personal goals.

Career-ready individuals take personal ownership of their own education and career goals, and they regularly act on a plan to attain these goals. They understand their own career interests, preferences, goals, and requirements. They have perspective regarding the pathways available to them and the time, effort, experience and other requirements to pursue each, including a path of entrepreneurship. They recognize the value of each step in the education and experiential process, and they recognize that nearly all career paths require ongoing education and experience. They seek counselors, mentors, and other experts to assist in the planning and execution of career and personal goals.

CRP11, Use technology to enhance productivity.

Career-ready individuals find and maximize the productive value of existing and new technology to accomplish workplace tasks and solve workplace problems. They are flexible and adaptive in acquiring new technology. They are proficient with ubiquitous technology applications. They understand the inherent risks-personal and organizational-of technology applications, and they take actions to prevent or mitigate these risks.

CRP12. Work productively in teams while using cultural global competence.

Career-ready individuals positively contribute to every team, whether formal or informal. They apply an awareness of cultural difference to avoid barriers to productive and positive interaction. They find ways to increase the engagement and contribution of all team members. They plan and facilitate effective team meetings.

Materials

This guide is sequenced in weekly lessons outlined by the NJSLS.

1. *North Bay Vistas* (Robert W. Smith)
2. *Annandale Chronicles* (Ed Huckeby)
3. *Requiem for a Land Forgotten* (Robert Sheldon)
4. *Stomp* (Video)
5. *Drumline* (Video)
6. *Blast* (Video)
7. *Essential Musicianship for Band Ensemble Concepts*
8. *Advanced Contest Warm-ups* (arr. Dallas Burke)
9. *Four Chorales for Concert Band* (Roland Barret)
10. *Video Library* consisting of several Disney movies and films with scores worthy of study and analysis
11. *The Great Composers* (video)
12. *Masters Theory*
13. *Battle Hymn of the Republic* (John Higgins)
14. *God Bless America* (arr. Jay Bocook)
15. *America the Beautiful* (Nick Baratta)
16. *The Star Spangled Banner* (Mark Williams)
17. *Connections: Chorales and Exercises* (Clark and O’Laughlin)

List of Possible Wind Ensemble Projects

1. *Stomp* composition project – On day one, students will view a video of *Stomp*. Students will discuss the use of non-traditional instruments, including brooms, garbage cans, basketballs, and other objects. Students will be broken into groups and assigned the task of composing their own percussion composition using non-traditional instruments. Students will be expected to notate and perform their composition for two test grades on day 5. (NJSLS# 1.1, 1.2, 1.4)

2. *Blast!/Drumline* comparison project – Students will view both *Blast!* and *Drumline*. Students can either work in groups or individually on preparing a comparative essay between the two movies (NJSLS# 1.1, 1.2, 1.4)

3. The term sectional is used to indicate that students will work independently within their own individual sections, i.e. all the trumpets will work together and all the flutes will work together on their music tasks. Sectionals should be infused into the curriculum throughout the year for the purposes of group work to be facilitated by the instructor. Each sectional should have a knowledgeable, advanced student leading the group work with occasional assistance by the instructor.

4. Suggested listening projects and group discussions to be interspersed throughout the semester include: listening logs, whereby students listen to a certain type of music style on their own and complete a journal entry describing their opinions on that style; Disney animated musical score analysis, whereby students will watch portions of several different Disney musicals in class and analyze their scores and the effects of the music on the plotlines; film score analysis, whereby students watch portions of different film scores by composers including John Williams, James Horner and Jerry Goldsmith, and analyze the scores for effect; and Broadway musical introductions. Preparing and auditioning for, and performing in, the orchestra/band for the spring musical is one of the primary goals of our music program. Students will be exposed to the Broadway style musical during this class towards those goals.

Warm-Ups

The warm-up is an essential part of each class and is done daily. The *Advanced Contest Warm-Up* and any of the *Four Chorales* can be used anytime throughout the semester for warm-up purposes at the discretion of the instructor.

Please note that in addition to the above lesson structure, all members of the wind ensemble will be performing all concert band literature, will perform with the orchestra class and will learn additional, more challenging materials throughout the school year. Wind Ensemble is a BY-AUDITION-ONLY course designed for the most advanced wind band students. Entrance to the course is at the sole discretion of the current high school instrumental music instructor.

7. Wind Ensemble will learn ALL major and minor key signatures in their pursuit of learning advanced music for wind band.

Curriculum Units

Wind Ensemble is a course focusing on highly advanced wind band repertoire, tackling challenging above grade-level music selections. The Wind Ensemble curriculum contains a break down of weekly lessons paced over the course of one semester. Students learn a combination of scales, warm-ups, music theory and concert selections on a weekly basis to ensure that by the end of each semester students are capable of performing two to four musical selections on our winter/spring concerts. Additionally, the wind ensemble learns all course materials for the concert band and full orchestra, as needed. They also learn a full complement of patriotic music for special events. Below is a weekly break-down of lesson pacing. The same pacing applies to second semester as well.

For the purposes of this curriculum guide, each week is considered one unit. There will be eighteen units in each semester (or nine units per quarter), culminating in a final concert performance at the end of each semester (winter/spring concerts). Performance on these concerts is a mandatory course requirement valued at five test grades. This is a performance-based course; therefore, the performance aspect of the performing arts dictates live concert performances of the utmost value. We spend an entire semester learning several musical selections, covering a multitude of musical concepts, genres and information along the way, all in preparation for a final concert presentation to an audience of parents, teachers, administrators and the community at-large.

Semester Two will continue to expand upon musical and theoretical concepts studied during first semester. Students will learn six additional major scales (F major, D flat, G flat, A major, E major, B major). Students will continue to learn additional Belwin warm-ups. Students will learn three to four selections in preparation for the spring concert.
